High-Performance LCD Expansion Module

The EXP40 Expansion Module for the SIP-T46G, expanding the functional capability of your phone to a whole new level. Featuring a large graphic LCD with two pages of 20 flexible buttons which can be programmed for up to 40 various features. These productivity-enhancing features include BLF/BLA, speed dialing, call forward, transfer, park, extension calling, etc.

EXP40

Key Features and Benefits

Revolutionary New Design

New design matches elegantly with the look and feel of a T46G, rubber covers on the feet that contact the desk surface help prevent the phone from sliding. The new foot stand allows for two positions, is wall mountable and the backlit display eliminates the need for external light.

A Rich Visual Experience for Applications

Equipped with a 160x320 graphic LCD with backlight. Two page views are possible with the 20 physical keys, each with a dual-color LED, allowing for up to 40 additional programmable keys. Switching between pages is controlled by two independent keys.

Expandability

Supports up to 6 Expansion Modules for an attendant console application, adding up to 240 additional buttons. Three Expansion Modules may be added and powered by the T46G before conventional power supplies are needed.
