High-Performance Color-screen Expansion Module

The EXP50 Expansion Module for the Yealink T5 Series IP phones is designed to expand the functional capability of your SIP phone to a whole new level. Featuring a large 4.3-inch color-screen LCD, it provides three pages of 20 flexible buttons which can be programmed for up to 60 various features. The Yealink EXP50 Color-screen Expansion Module is an ideal solution for receptionists, administrative assistants and contact center workers allowing you to manage a large number of calls with ease.

EXP50

Key Features and Benefits

User-friendly Structure Design

With a 4.3-inch color screen, the Yealink EXP50 expansion module is intended to bring a fresh visual experience and an easy operating experience to you. Its new design for the stand enables you to adjust between two lying angles easily, even without disassembling it. To ensure a higher reliability of data transmission and a higher speed of data refresh, a USB cable is chosen to connect the EXP50 to the Yealink T5 Series IP phones. Moreover, the remaining USB port on the EXP50 can also be used to realize the phone's extended functions, such as call recording via USB flash drive, etc.

Intuitive Visualization

A 4.3-inch 272x480-pixel color screen greatly enriches your visual experience. The color icons for DSS keys and Wallpaper and Screensaver features offer you a new operating experience. Its 3 independent control keys with illuminated LED allow for fast switching to the corresponding page.

High Expandability

Supports up to 3 Expansion Modules while adding 180 additional buttons. Three pages of 20 flexible buttons with dual-color LED shown on the display can be programmed for up to 60 various features that will help you effectively manage high volumes of concurrent calls, effortlessly monitor calls and boost personal productivity.
